Expertise

Fire-Quip was established in September 1985 and for the past 40 years we have been one of the leading fire fighting companies in South Africa.

FIRE-QUIP is the holder of the SANS 1475 Mark since 1991.

Our products are manufactured to current specifications and carry a five (5) year guarantee against defective workmanship from date of installation. In order for the guarantee to remain in force we require the equipment to be serviced on an annual basis by our fully SAQCC trained Fire-Quip technicians.

SAQCC 1475

All servicing is done on site by our trained technicians with fully equipped mobile workshops under the **BSI Kitemark** with certification number: **KM 793787**. Fire-Quip has multisite certification with the following numbers:

- | | | |
|----|------------------------|-----------------------|
| 1. | Fire-Quip Welkom | Fire-Q-0047911875-000 |
| 2. | Fire-Quip Bethlehem | Fire-Q-0047911875-001 |
| 3. | Fire-Quip Kathu | Fire-Q-0047911875-002 |
| 4. | Fire-Quip Vereeniging | Fire-Q-0047911875-003 |
| 5. | Fire-Quip Bloemfontein | Fire-Q-0047911875-004 |

for both servicing & selling of Fire Equipment. Currently Fire-Quip has 28 mobile workshops in the field to provide on-site servicing, including Pressure testing of low pressure vessels. These facilities enable us to do on site servicing without removing any Fire Extinguishers from your property, thereby reducing the risk of fires not being controlled due to the fact that the Fire Protection equipment has been removed.

SAQCC GAS & DETECTION

Fire-Quip is SAQCC Detection and Gas registered as well as FDIA registered and we are capable to perform the following functions and services:

Smoke detection systems

Design of smoke detection systems, supply and install of detection systems, modifications to detection systems, service and regular maintenance to any smoke detection system as per regulation SANS 10139 and SANS 10400 T

Smoke detection system for Hospitals SANS 322

Design, supply and install modifications, service and maintenance as per SANS 322

Public Address and Evacuation systems

Design, supply and install, modifications to existing systems and service and maintenance as per SANS 7240 part 16 & 19

Gas suppression systems

Design of the electronic detection systems, supply and install, modifications and service and maintenance as per SANS 14520, 369 1&2, 306-4, 246.

Fire Quip can install all leading brand of detection and suppression system equipment sold in South Africa. For example, Bosch, Ziton, Advance, Aritech, Technoswitch, Xstralis Vesda, Apollo, The Fire Beam, Titunus, Hygood, Kidde, Pyroshield, Stat-X and many more.

Why deal with Fire-Quip?

Ongoing and long term relationship

The structure and very nature of our business allows us to develop and nurture stable, ongoing relationships with our clients and suppliers. Our strict policy of integrity, honour and professionalism ensures that our clients' and suppliers' interests are placed at the forefront in all our business dealings and servicing at all times.

Pricing

Fire-Quip believes in and provides products and professional services that give all our clients and suppliers true **value for money** and keep them compliant with relevant legislation. This is a key factor in ensuring that we maintain the long-term relationships that are of paramount importance in the achievement of our company's objectives.

Transparency and commitment

Central to Fire-Quip's philosophy is transparency, honesty and accountability in all our dealings with clients and suppliers. In our business environment, we pride ourselves on this, as well as the protection of our clients' and suppliers' confidential information.

Supplier network

Our products and services are marketed directly by Fire-Quip in the industry.

Fire-Quip's Objective.

***"To be acknowledged as the preferred Fire Fighting, Signage, PPE and Training company
by our clients and our suppliers."***
